Peerless[®]
Handcuff Company

Snap!

100 Years of Setting the Standard

1912

U.S. Patent 1,017,955 issued to George A. Carney for a "swinging bow ratchet-type" adjustable handcuff.

1914

James Milton Gill establishes Peerless Handcuff Company. First production model sold based on Carney patent.

1932

Redesigned cuff introduced. Cuff is thinner and uses a barrel style key that will become the accepted "universal" handcuff key design.

1942

TO

1945

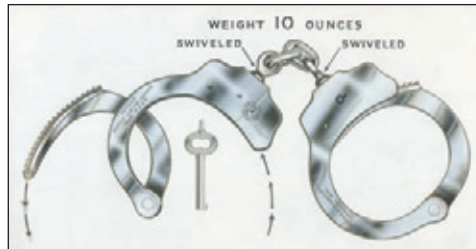

All production limited to "blued" finish due to nickel shortage during WWII.

1949

Death of James Milton Gill.

1957

Peerless introduces 4.5 oz. light-weight handcuff.

1963

First Peerless Leg Iron sales.

1981

First Peerless Waist Chain sales.

1998

Model 500 and the 500 Series introduced.

1995

First Peerless cuffs to be marked with model numbers Model 300 and Model 301.

2001

Peerless introduces Model 510 High Security Restraint using non-standard key.

2002

Model 700 and 800 series introduced.

First Peerless product with raised rivet design.

2008

First sales of Peerless color plated restraints.

The original Peerless trade mark.

2011

6th millionth Peerless restraint sold.

2014

Peerless® Handcuff Company celebrates 100 years as a 4th generation, family-run business.

Peerless® Handcuff Company was established in 1914 by James Milton Gill in Springfield, Massachusetts. **Now in our fourth generation, 2014 marks our 100th anniversary** as a family business committed to producing the finest restraints available. Peerless® has been headquartered in Springfield throughout our long history, and our signature restraint products are still proudly made in the USA. We celebrate this milestone that began 100 years ago, and will continue to improve and innovate for years to come.
