

# **GILA STRIKE 54r** **SNIPER/ MARKSMAN RIFLE**

The Gila Strike 54r – American/European scope rail system versions provide a highly mobile and easy to handle rifle to replace PSL and SVD platforms. The full-auto variant provides greater firepower and mobility than the lighter caliber RPK and RPD machine guns. The full-auto model, is the only squad automatic weapon, which when used as a semi-automatic, will act as a counter sniper/ designated marksman rifle.

## Main Features:

- Redesigned and improved front and rear trunnion
  - Allows weapon to use heavy ball 7.62X54r ammunition
  - Allows the use of AR series grips and stocks accessories (For example - XTech "Adjustable Hand Grip")
- New Heavy barrel
  - Improves Accuracy – Sub MOA at 100 yards surpassing traditional PSL and SVD rifles
  - Effective Firing Range 1300 ~ 1500m
- Advanced muzzle break
  - Reduces Recoil
  - Reduces Operator fatigue
- Patented scope rail system and Long Range Scope (Included)
  - Provides a stable platform to mount all modern and legacy night vision, scopes and optics
  - Allows for dust cover removal without removing optics
- High capacity magazine
  - Provides more ammunition for the individual shooter
  - Increases combat effectiveness of weapon over traditional PSL and SVD rifles
- Full-automatic model
  - Increase the firepower at the squad level
  - Provides PKM machine gun level impact without the added weight and limited mobility
